

Eos Oro Dulce

Chair (with armrests) \

We are really going back to the roots with this surprising chair series. Each chair from the series has a high level of seating comfort, is extremely functional and is suitable for any healthcare setting.

The solid beech frame, as well as the wooden legs can be stained with any of the stain colours from our extensive collection. The low, ergonomically shaped back offers excellent support when the chair is used for extended periods of time. The seat and back of the chairs are upholstered. We have an extensive range of fabrics to choose from, ranging from functional, easy to clean or with a design look, that will fit the entire interior design concept.

Each chair from the series can be fitted with two castors on the front legs, which makes it incredibly easy to move the chair around when the area is being cleaned.

The chairs can be used in various spaces such as resident rooms, reception rooms, entrance halls and cafeterias, giving the care environment a uniform look.

What makes the Eos, Oro & Dulce chairs (with armrests) so unique? \

- \ 3 types of armrests (Eos, Oro & Dulce)
- \ Dulce in both stackable and non-stackable version
- \ Chair or chair with armrests
- \ Oro also available in extra-wide version

MODELS

EOS

The most basic chair from the series, available as chair and chair with armrests.

ORO

The armchair has slightly curved armrests/front legs in laminated beech. The chair is also available in a large version.

DULCE

The chair with armrests is designed with armrests made of solid beech. The chair has an extra grip to help the person using the chair get up more easily. Ideally suited for people with reduced mobility. Both stackable and non-stackable version available.
